

HOW TO REPORT SCORES AND PLAYER STATISTICS ONLINE

From the home page, click on Report Scores link. Select Location, Division, Date, and Matchup. The online score sheet will appear for entry of information.

The screenshot shows the 'ACTION DART LEAGUE' scoresheet interface. At the top, the league name is displayed in a large, stylized font. Below it, the word 'SCORESHEET' is written in green. The form includes several dropdown menus for selecting the location ('Phat Chads'), division ('Thursday: A - Doubles (15-19/NL)'), date ('9/29/2011'), and matchup ('Long Shots vs. Dart Knights'). A message states: 'Scores will be approved by an administrator within 48 hours.'

The form is divided into two main sections: 'HOME TEAM' and 'VISITING TEAM'. Each section has a team name at the top, with a small icon and a black arrow pointing to it. Below the team name is a table with columns for 'ID', 'NAME', '01 GAMES', 'CRI GAMES', 'AWARD', '01 AVG.', and 'CRI AVG.'. Each row in the table has a search icon (magnifying glass) and a red 'X' icon to the left of the ID field. The '01 GAMES' and 'CRI GAMES' columns contain the number '0', and the 'AWARD' column contains 'N/A'. The '01 AVG.' and 'CRI AVG.' columns contain '0.00'. Below the table, there are 'Wins:' and 'Losses:' input fields, and a green '+ ADD PLAYER' button.

At the bottom of the form, there is a 'Save' button. On the left side of the page, there is a navigation menu with links for Home, League, Schedules, Standings, Players, Report Scores, Captains Packet, Locations, and Contact Us. At the bottom left, there are social media links for Facebook and Twitter.

Enter in player information either manually or use the Online Roster to populate the ID and name fields. To populate fields automatically:

1. Click on either Home Roster or Visitor Roster icon to right of team name (see arrows above).
2. Drag name of player into appropriate NAME box. Do this for all players, and then manually enter 01 games, Cricket games, 01 Avg., and Cricket Avg. **Make sure that for the 01 stat, you enter the Points Per Dart statistic (PPD) – not PPR (Points Per Round).**

** You also have the option of population the ID number and name by clicking on the SEARCH icon to the left of the ID field – search for name of player and select the name.

If you are on a Trios team and need to add a 3rd player (or have 3 players on a Doubles team), select Add Player link and add information. You can use the SEARCH icon to look for the player.

After entering in ALL information, **verify to ensure it is accurate then select the SAVE button.** If you have problems entering in scores, contact your league operator.
